Professional Experience

Bank of America, Simi Valley, California

Technology Delivery Manager | June 2010 - October 2010

Managed the complete lifecycle of initiatives, including people, business analysts, developers, process, and technology.

Controlled financial budget allocated to projects and managed project/program schedules to ensure on-time and on-budget delivery.

Facilitated project team meetings to gather project status information and provide guidance to team members.

Acted as the primary customer contact for the project team and mediated/resolved project team conflicts.

Ensured compliance with BAC enterprise policies and procedures, including supply chain information security.

Anticipated and took proactive measures to resolve potential gaps/conflicts/issues that could inhibit success.

Held joint accountability with the project champion for the delivery of business case benefits.

Commanded a high salary, significantly above the industry average, reflecting the high value and expertise brought to the role.

WellPoint Inc., Newbury Park, California

Senior Technology Manager | 2001 - 2010

Technology Manager | 1998 - 2001

Managed technology initiatives for a healthcare provider with 10,000 employees and \$15 billion in revenue.

Directed large-scale planning, architecture, application design/development, and SDLC waterfall methodologies.

Developed and implemented advanced IT/software solutions to meet corporate needs.

Built and led top-performing teams of technical professionals.

Improved team morale and built rapport with individuals at all levels.
