Professional Summary

Forward-thinking Mechanical Maintenance Engineer with hands-on experience in performing quality troubleshooting on electrical, hydraulic, and pneumatic systems. Skilled in the development of new components and areas of expertise include project management, quality control, and mechanical design. Strong presentation skills and technical detailing abilities in architectural building systems. Certified in skid loaders and forklifts, with basic welding and construction estimation knowledge.

Professional Experience

Mechanical Maintenance Engineer

BASF, Kankakee, IL *July 2013 - Current*

- Facility maintenance and upgrades
- Wiring new mechanisms
- Troubleshooting product knowledge and new systems
- Truck repair
- Preventative maintenance aspects
- Diesel fuel, MIG, TIG, and stick welding skills
- Customer service and receiving miscellaneous products
- Supervisor and trainer for mechanical maintenance
- Published several scholarly articles in professional journals on mechanical maintenance and engineering.

Mechanical Maintenance

Lineage Logistics, Chester, VA *August 2011 - July 2014*

- Hazmat work
- Supervising crews
- Training new employees
- Commanded a high salary relative to others in similar positions, as evidenced by pay statements.

Owner/Operator

Exquisite Kitchens & Baths, City, State *February 1993 - July 2011*

- Architectural drawings and design
- Plumbing, electrical, and carpentry troubleshooting
- Customer relations and sales
- Product orientation
- Bookkeeping

Education

Diploma in Art

JP McCaskey High School, Lancaster, PA

B.E. in Architecture/Engineering

Virginia Tech University, Blacksburg, VA *1992 - 1998*

Critical Employment

Played a critical role in the development of new mechanical systems at BASF, significantly contributing to the company's innovative projects.
