Key Skills

- JSP
- Advanced Java

Professional Memberships

Member of the Association for Computing Machinery (ACM)

Professional Summary

Enthusiastic and well-organized Java Developer with 3 years of experience. Eager to join Microsoft to bring top-class Java development and problem-solving skills. In previous roles, reduced app memory consumption by 30% and decreased startup time of apps by 70%.

Work Experience

Java Developer

Dacoderz, Los Angeles, CA

2017 - 2018

- Analyzed and designed program changes.
- Reviewed and updated requirements documentation.
- Wrote design documents (PRD, FRD, UIRD, TRD, SRS, SDD).
- Planned, documented, and executed tests to ensure code changes met requirements and specifications.
- Supported programming changes, quality assurance, user acceptance testing, and post-implementation.
- Applied relevant technical skills to deliver specifications, program changes, unit test scripts, and documentation.

Key Achievements:

- Achieved a 30% reduction in app memory consumption by eliminating duplicate strings via garbage collection logs analysis and refactoring code.
- Recognized for improved code inefficiencies, leading to a 40% increase in app stability.
- Published two scholarly articles in the Journal of Software Engineering and Applications.

Junior Java Developer

Quantexx, New York, NY

2015 - 2016

- Designed, developed, troubleshooted, debugged, and implemented software code, software components, and web applications.
- Cooperated with graphic designers and project team members to develop website concepts, interface design, and architecture.
- Integrated web applications with backend databases.

- Deployed large web-based transaction systems using application servers.
- Researched, tested, built, and coordinated the integration of new products per production and client requirements.

Key Achievement:

- Reduced startup time of Java apps by 70% via CDS implementation.
- Served as a peer reviewer for the International Journal of Computer Science and Information Security.

Education

UCLA

B.S. in Computer Science, GPA: 3.9

2013 - 2016

Coursework: Computer Systems Architecture, Programming Languages, Algorithms, Complexity, Automata Theory

High Remuneration

Commanded a salary in the top 10% of Java Developers in Los Angeles during tenure at Dacoderz.
