## Professional Summary

Dedicated professional with a long history of meeting tight shipboard goals utilizing organized leadership and consistent hands-on practices. Skilled at working under pressure, adapting to new situations, and repairing and restoring complex engineering systems to optimal working conditions. Qualified technician with seven years of successful experience in mechanical/physical engineering, welding, fabrication, metallurgy, and quality assurance procedures. Seeking a full-time position that offers professional challenges and utilizes interpersonal skills, time management, and problem-solving abilities.

## Skills

Organized leadership

Hands-on practices

Working under pressure

Adapting to new situations

Repairing and restoring  
complex engineering  
systems

engineering

Welding and fabrication

Metallurgy

Quality assurance  
procedures

Interpersonal skills

Time management

Problem-solving

## Work Experience

### Mechanical Testing Engineer, McDonald's, Happy Valley

09/2021 - 12/2021

Commissioned, operated, installed, maintained, and repaired ship propulsion and auxiliary systems, including steam, gas turbine, and diesel propulsion.

Troubleshoot, tested, and ran various ship fluid systems, including pumps, compressors, purifiers, refrigeration units, heat exchangers, hydraulic motors, actuators, and valves.

Tested and installed 20 different types of engineering systems to meet USN specifications.

Applied advanced mechanical engineering skills to resolve complex problems and improve existing procedures.

Networked with engineering groups and firms to modify product performance.

Identified areas for improvement and developed plans with senior leadership.

Reviewed and rewrote 50 types of mechanical work packages.

Commanded a high salary for services rendered, significantly above the industry average.

### Maintenance Technician, Sonic, Drumright, OK

09/2014 - 09/2021

Reviewed and performed detailed QA on fabrication/ engineering drawings for almost 1600 projects.

Led and trained 400 sailors and contractors in LOTO procedures, equipment drawing interpretation, and troubleshooting principles.

Troubleshoot and repaired various complex systems, including high-flow pump diagnostics, piping, diesel engine repair, ballast tank degradation, shipboard hull repair, refrigerant lines, CIWS cooling systems, and shaft and rudder repair. Developed 300 new products to boost efficiency in large and small systems throughout the ship.

Performed, organized, and executed 1000 work packages using QA, ESOMS, and lock tag procedures.

Developed and updated practical spreadsheets using Microsoft Excel to track \$700,000 worth of parts and supplies.

Counseled departmental leaders and contracting groups to determine issues and deliver solutions.

Managed deadlines and adjusted workflow for a work center of 30 personnel.

Earned three Flag Letter Commendations for meritorious and honorable service.

Awarded four Navy and Marine Corps Achievement Medals.

Contributed original engineering solutions that were adopted by the company and led to significant improvements in operational efficiency.

## **Cashier, Sonic Drive-In, City, State**

*01/2013 - 08/2014*

Memorized orders and maintained 90% accuracy during high-traffic times.

Communicated with management and associates to set and exceed sales and customer satisfaction goals.

Organized freezers, refrigerators, and storage rooms, and managed food and beverage supplies.

Maintained customer service standards for 500 customers daily.

Identified prices of goods, calculated bills, and operated optical price scanners, calculators, and cash registers.

Promoted to co-manager in less than a year.

## **Education**

**Associate of Science in Engineering Physics**, Grossmont College, El Cajon, CA

**High School Diploma**, West Hills High School, Santee, CA 06/2012

## **Achievements**

Earned three Flag Letter Commendations for meritorious and honorable service.

Awarded four Navy and Marine Corps Achievement Medals.
